I am writing to express my interest in joining re:act's freelance UGC creator network. Your focus on working with a diverse range of brands and creators with different styles and experiences aligns well with my approach to content creation.

While my professional background is in software engineering and full-stack development, I have consistently created and edited high-quality video content for my own projects and portfolios. I am comfortable appearing on camera, explaining technical concepts clearly, and producing engaging social-first content that resonates with viewers.

I have a strong understanding of current social media trends and UGC styles. I can develop creative concepts that fit specific brand requirements while maintaining authenticity. My experience with video editing tools and production workflows allows me to deliver polished content within a 48-hour turnaround window.

In addition to my content creation skills, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV and portfolio for your review. I look forward to the opportunity to create content for re:act's brand partners.
