I am writing to apply for the Customer Success Manager position at Gifted. Your focus on providing a clear career path and fully remote work aligns with my own professional values and working style.

In my previous roles as a web developer, I worked directly with stakeholders and clients to understand their needs, translate requirements into actionable plans, and ensure successful project delivery. This experience has given me strong communication and relationship management skills that are directly applicable to client success.

I am comfortable working independently in a remote environment and have a track record of clear, timely communication with teams and clients across different time zones. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am looking for a role where I can apply my problem-solving abilities and client-focused mindset to help customers succeed. I would welcome the opportunity to discuss how my background can contribute to Gifted's team.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
