I am writing to apply for the Customer Support Specialist position at RecruitLytic Hires. Your focus on delivering exceptional service through clear communication and professionalism aligns with how I approach customer-facing work.

Through my experience as a software engineer, I have developed strong problem-solving skills and the ability to communicate technical information clearly to non-technical users. I am comfortable handling inquiries via email, chat, and phone, and I understand the importance of maintaining accurate records and following up on cases to ensure timely resolution.

I work well independently in remote environments and have a reliable high-speed internet connection along with a dedicated workspace. I am fluent in English and Bengali, with working knowledge of Russian and Hindi, which helps me connect with diverse customers effectively.

In addition to my technical background, I prioritize empathy and professionalism in every interaction. I am comfortable learning new tools and processes quickly, and I am committed to supporting continuous improvement by identifying recurring issues and collaborating with internal teams.

I have attached my CV for your review and welcome the opportunity to discuss how I can contribute to your team.

Thank you for your time and consideration.

Sincerely,

Md Shahanur Islam Shagor
