I am writing to express my interest in the Online Data Analyst Canada position at TELUS Digital. The opportunity to contribute to a project that enhances the quality of digital maps used by millions of people worldwide aligns well with my research-oriented approach and attention to detail.

Through my work as a software engineer, I have developed strong skills in conducting thorough research, verifying information, and evaluating data accuracy within web-based environments. My experience building full-stack applications has given me a disciplined approach to following guidelines and maintaining quality standards.

One area that particularly interests me is the variety of task types involved in this role, including maps, news, audio tasks, and relevance evaluation. My background in working across different technologies and problem domains has prepared me to adapt quickly to diverse task requirements while maintaining consistent accuracy.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am confident in my ability to pass the qualification exam and contribute to the project's success. I have attached my CV for your review and look forward to the opportunity to discuss how I can add value to your team.

Sincerely,

Md Shahanur Islam Shagor
