I am writing to apply for the Customer Service Rep I position at SanMar-Internal. The role's focus on providing high-quality support, learning internal systems, and working collaboratively aligns with my professional background.

Through my experience as a Web Developer, I have developed strong communication skills and the ability to explain technical concepts clearly to non-technical stakeholders. I am comfortable handling inbound inquiries, troubleshooting issues, and maintaining accurate records. My work has required me to stay organized, manage multiple priorities, and meet deadlines consistently.

I am a quick learner when it comes to new software and processes. In previous roles, I adapted quickly to new tools and workflows, ensuring accurate data handling and efficient task completion. I am confident I can learn SanMar's systems and product knowledge to serve customers effectively.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I look forward to the opportunity to contribute to the SanMar-Internal team.

Thank you for your consideration.

Sincerely,

Md Shahanur Islam Shagor
