I am writing to apply for the Executive Director K12 Academic Partnerships role at Dreamscape Learn. Your mission to transform STEM education through immersive, VR-enabled learning experiences is genuinely compelling, and I am interested in contributing to your K12 growth strategy.

My background is in full-stack development and AI engineering, where I have built scalable platforms and integrated intelligent systems for real-world use. I have experience working across multidisciplinary teams, communicating with both technical and non-technical stakeholders, and aligning product direction with market needs.

In my previous work as a Web Developer, I collaborated closely with internal teams and clients to deliver end-to-end solutions. I am accustomed to understanding complex requirements, building stakeholder alignment, and ensuring that technical execution supports broader business objectives.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
Full-Stack Developer & AI Engineer
