I am writing to apply for the Kundensupport / Onboarding position at pathway solutions GmbH. Your mission to automate accounting processes for e-commerce businesses and startups is a compelling one, and I am interested in contributing to your team's success.

Although my professional background is in software engineering, I have developed strong analytical and problem-solving abilities through years of building and maintaining complex systems. I am skilled at identifying recurring issues, improving workflows, and communicating clearly with both technical and non-technical stakeholders. These skills translate directly into providing effective customer support and ensuring a smooth onboarding experience.

I am fluent in English and have working knowledge of German, which allows me to communicate comfortably with your clients. I am also comfortable working remotely, managing my time independently, and collaborating with teams across different functions. I am genuinely interested in the digitalization of the accounting industry and eager to learn more about DATEV and your platform.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application. I look forward to the possibility of contributing to pathway solutions.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
