I am writing to apply for the Customer Service role at Singularu. Your focus on making every client feel special and supported resonates with how I approach working with people.

Through my experience as a web developer, I have worked closely with clients and stakeholders to understand their needs, resolve issues, and deliver solutions that meet their expectations. This has given me strong communication skills and the ability to handle inquiries clearly and empathetically.

I am comfortable working in digital environments and using various tools to manage tasks and track interactions. I am organized, proactive, and enjoy collaborating with teams to improve processes and ensure a positive experience for everyone involved.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the opportunity to discuss how I can contribute to the Singularu team.

Sincerely,

Md Shahanur Islam Shagor
