I am writing to apply for the Behavioral Health Care Coordinator Scheduler position at Ennoble Care. Your organization's focus on mobile primary care, palliative care, and hospice services is meaningful work that requires careful coordination and genuine attention to patient needs.

Through my experience as a web developer working remotely with teams across different time zones, I have developed strong organizational and scheduling skills. I regularly coordinated project timelines, managed task priorities, and ensured clear communication between developers, stakeholders, and clients. These responsibilities required the same attention to detail and follow-through that care coordination demands.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am confident that my ability to organize complex workflows, communicate clearly, and work independently in a remote setting would allow me to contribute positively to your scheduling and coordination operations.

I have attached my CV for your review and welcome the opportunity to discuss how my background can support Ennoble Care's mission.

Sincerely,

Md Shahanur Islam Shagor
