I am writing to apply for the Technical Content Manager Teilzeit position at nLine GmbH. Your work on AI-based visual quality inspection systems for cable and wire manufacturers is technically impressive, and I appreciate the emphasis on data security through custom hardware and software.

Through my professional experience as a Web Developer, I have maintained technical documentation for software releases, created user manuals, and written Quickstart Guides for production systems. I have coordinated with translation teams to deliver content in multiple languages, ensuring accuracy and consistency across German, English, and other language versions.

One area that particularly interests me is website content management and SEO. I have developed and maintained websites using modern frameworks, optimizing text structure and metadata for search visibility. This experience directly supports the website development and social media responsibilities described in this role.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how I can contribute to nLine’s documentation and content strategy.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
