I am writing to apply for the Studentische Hilfskraft (m/w/d/x) fˆ…r Grafik, Foto- und Videoarbeiten position at DFKI GmbH - Robotics Innovation Center. The opportunity to support the Communications & Media team in Bremen, working on graphic, photo, and video content related to cutting-edge AI research, is particularly appealing to me.

DFKI's reputation as a leading center of excellence in artificial intelligence, with over 35 years of research focused on societal relevance and scientific excellence, is impressive. I am drawn to the idea of contributing to an interdisciplinary team that communicates complex AI topics to a broader audience through visual media.

Through my academic and project work, I have developed a solid foundation in design and web technologies. I am proficient with HTML, CSS, and JavaScript, and I have used Figma for UI/UX design and prototyping. My experience building responsive web interfaces with React and Next.js has given me a strong sense of visual composition and user-centered design, which I believe translates well to creating engaging graphics and layouts.

One area that particularly interests me is the documentation of events and live transmissions. In my previous work, I have been involved in creating visual content and supporting live features for web applications. I am comfortable working with studio equipment and am eager to learn and apply new tools like the Adobe Creative Cloud suite (Photoshop, InDesign, PremierePro, After Effects, Illustrator) to produce high-quality photo and video content for DFKI's projects.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am curious, reliable, and ready to bring my ideas and energy to the team. I have attached my CV for your review and look forward to the possibility of contributing to DFKI's important work.

Sincerely,

Md Shahanur Islam Shagor
