I am writing to apply for the Junior Human Resources Executive position at BrezQ. Although my professional background is in software engineering, I bring strong organizational abilities, clear communication skills, and a structured approach to problem-solving that translate well into HR operations.

Through my experience working remotely with international teams, I have developed reliable workflows for coordination, documentation, and task management. I am comfortable handling multiple responsibilities, meeting deadlines, and maintaining clear communication across different time zones.

I am a quick learner who adapts easily to new tools and processes. I approach every task with attention to detail and a focus on getting things done efficiently. I am also fluent in Bengali and English, with working knowledge of Russian and Hindi, which helps me collaborate effectively in diverse environments.

I am genuinely interested in contributing to BrezQ's team and growing within the HR field. I am confident that my discipline, communication skills, and willingness to learn will allow me to support your HR operations effectively.

I have attached my CV for your review and welcome the opportunity to discuss how I can contribute to your team.

Sincerely,

Md Shahanur Islam Shagor
