I am writing to apply for the Auxiliar Administrativo Remoto internship position. Although my primary background is in software engineering, I bring strong organizational discipline, attention to detail, and experience working with digital documentation and data management in remote settings.

Through my academic and project work, I have developed a methodical approach to handling information, maintaining records, and supporting team workflows. I am comfortable working with spreadsheets, document control processes, and digital communication tools that are essential for administrative coordination.

One area that particularly interests me is the opportunity to support document organization, internal controls, and legalization processes. I am a quick learner who adapts easily to new systems and procedures, and I am committed to delivering accurate and reliable support to all areas of the company.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am eager to contribute to your team and grow through this internship. I have attached my CV for your review and welcome the opportunity to discuss how I can support your administrative operations.

Sincerely,

Md Shahanur Islam Shagor
