I am writing to apply for the Online Data Entry Operator position at Impact HR & KM Solutions. The role's focus on data entry, computer operation, and back office tasks aligns with my technical background and typing proficiency.

Through my professional experience as a Web Developer, I have developed strong computer skills, including proficiency with various software tools, databases, and typing. I am comfortable working independently in a remote environment and can maintain accuracy and speed during repetitive data entry tasks.

I have reliable access to a computer and high-speed internet, and I am available for both part-time and full-time schedules. My background in software engineering has also given me a disciplined approach to following instructions and maintaining data integrity.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how I can contribute to your team.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
