I am writing to apply for the Human Resources Representative position at Ross Stores, Inc. While my professional background is in software engineering, I bring transferable skills in communication, cross-functional coordination, and process management that are directly relevant to supporting people operations.

In my previous roles as a Web Developer, I worked closely with stakeholders, engineers, and clients to align project goals, manage timelines, and ensure clear documentation. These experiences have strengthened my ability to communicate effectively, handle multiple priorities, and maintain organized workflows in collaborative environments.

I am comfortable working across diverse teams and have experience collaborating with colleagues from different cultural and professional backgrounds. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy contributing to inclusive, people-focused environments.

I am genuinely interested in joining a company like Ross Stores, where values start with people. I believe my attention to detail, reliability, and willingness to learn would allow me to contribute meaningfully to your HR team.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
