I am writing to apply for the Sachbearbeiter (m/w/d) position at DHG Deutsche Hˆ¶rakustik GmbH. Your company's mission to improve hearing and quality of life through mobile service is meaningful work, and I would be glad to support your team in the backoffice.

Although my professional background is in software engineering, I have developed a precise and structured approach to handling data, documentation, and process optimization. My work has involved managing complex databases, ensuring data integrity, and maintaining clear records across multiple systems.

In previous roles, I built and maintained applications that required careful attention to detail, accurate data entry, and systematic problem-solving. I am comfortable working independently, following established procedures, and collaborating with team members to keep operations running smoothly.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
