I am writing to apply for the Operations Manager (m/w/d) position at DHG Deutsche Hˆ¶rakustik GmbH. Your focus on enabling a mobile hearing aid service through efficient backoffice operations and process improvement is something I find genuinely meaningful. The opportunity to contribute to a team that directly improves people's quality of life is what draws me to this role.

Although my professional background is in software engineering, I have developed a strong set of transferable skills that align well with the responsibilities of this position. Through my work as a Web Developer, I have managed complex data flows, maintained meticulous documentation, and ensured accuracy in every detail. I am comfortable working with numbers and data, and I approach problems with a structured, solution-oriented mindset.

One area that particularly interests me is process improvement. In my previous roles, I have actively contributed to refining workflows and implementing more efficient ways of handling data and communication. I am confident I can bring this same proactive approach to your backoffice operations, helping to streamline billing processes and maintain clean, traceable records.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am ready to take on responsibility and contribute to your team's success. I have attached my CV for your review and look forward to the possibility of discussing how I can support your mobile hearing aid service.

Sincerely,

Md Shahanur Islam Shagor
