I am writing to apply for the Driving Examiner position at the Department of Customer Services, Open Data and Small and Family Business. The role's focus on conducting fair assessments, promoting road safety, and contributing to community services aligns with my disciplined approach and commitment to quality.

Although my professional background is in software engineering, I bring strong analytical skills, attention to detail, and the ability to follow structured procedures precisely. These qualities are directly transferable to evaluating driving skills, ensuring compliance with standards, and providing clear feedback to candidates.

I hold a valid driving license with a clean record and understand the importance of road safety. I am prepared to undergo any required training to meet the specific requirements of this role, including obtaining the necessary Heavy Rigid licence.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my skills and dedication can contribute to the department's goals.

Sincerely,

Md Shahanur Islam Shagor
