I am applying for the Medical Claims Processor I position at Moda Health. Your company's long-standing commitment to quality healthcare and community support is impressive, and I would welcome the opportunity to contribute to your team.

While my background is in software engineering, I bring strong data entry skills, attention to detail, and the ability to work accurately under deadlines. I am comfortable navigating multiple screens and systems, and I follow procedures carefully to ensure quality and compliance.

In previous work, I have consistently demonstrated punctuality, organization, and the flexibility to adapt to changing priorities. I am comfortable working independently in a remote setting and maintaining balanced performance across production and quality metrics.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
