I am writing to apply for the Werkstudent*in (m/w/d) HR Operations position at inno2grid GmbH. Your work in the energy sector, particularly as a joint venture between DB E.C.O Group and Schneider Electric, is genuinely interesting to me. I am drawn to the opportunity to contribute to a young, dynamic team while gaining practical experience in HR operations.

Although my academic and professional background is in software engineering, I have developed strong organizational and process-oriented skills through my work. In my previous role as a Web Developer, I was responsible for managing project workflows, coordinating with multiple stakeholders, and ensuring that tasks were completed on time and with attention to detail. These experiences have taught me to work independently, prioritize effectively, and maintain clarity even when handling several responsibilities simultaneously.

I am currently pursuing a Bachelor’s degree in Software Engineering at Voronezh State University of Forestry and Technology, Russia. My studies have reinforced my ability to learn new concepts quickly, work systematically, and adapt to unfamiliar domains. I am confident that these qualities will allow me to quickly understand HR processes and contribute meaningfully to your team.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application. I look forward to the possibility of contributing to inno2grid.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
