I am writing to apply for the Junior Produktentwickler Equipment position at GORNATION GmbH. Your mission to strengthen calisthenics sports and develop functional fitness equipment resonates with me. I am drawn to the hands-on, pragmatic culture you describe, where ambition and real impact matter more than hierarchy.

Although my professional background is in software engineering, I have developed strong project management and organizational skills that transfer directly to product development. In my previous roles, I managed multiple projects simultaneously, coordinated with international teams, maintained clear timelines, and ensured deliverables met quality standards. I am accustomed to taking ownership of tasks, communicating clearly with stakeholders, and adapting quickly to new domains.

One area that particularly interests me is the systematic improvement of products. In my work, I have regularly identified optimization opportunities, implemented changes, and tracked results. I am confident I can apply this same structured, improvement-driven mindset to GORNATION's equipment, from analyzing materials and prototypes to coordinating samples and providing clear feedback.

I am a quick learner with a strong technical foundation. I am ready to immerse myself in the world of calisthenics equipment, understand materials like neoprene, leather, and metals, and contribute to developing products that meet GORNATION's quality standards. I value clear communication, teamwork, and working in an environment where feedback is direct and constructive.

In addition to my technical and organizational experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the opportunity to discuss how I can contribute to the GORNATION team and help develop equipment that athletes worldwide will use and trust.

Sincerely,

Md Shahanur Islam Shagor
