I am writing to apply for the Hoteldirektor position at InterSPA Gruppe. The opportunity to lead a hotel within a respected group that serves over 2.5 million guests annually is compelling, and I am confident that my background in managing complex systems and teams aligns with the responsibilities of this role.

My professional experience has centered on overseeing full project lifecycles, coordinating cross-functional teams, and ensuring that operational goals are met on time and within budget. At Explo-IT, I was responsible for delivering scalable web applications, which required clear communication with stakeholders, prioritization of tasks, and consistent quality control. These responsibilities have given me a strong foundation in operational leadership and team management.

One area that particularly interests me is the focus on guest satisfaction and service quality. In my previous work, I have consistently prioritized user experience and feedback-driven improvements. I am accustomed to setting high standards, monitoring performance metrics, and iterating on processes to achieve better outcomes. I am confident I can apply this same structured approach to maintaining and elevating the hotel's service standards.

In addition to my technical and operational experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and welcome the opportunity to discuss how my experience in operational management and team leadership can contribute to the continued success of Dreiburgensee Naturhotel & SPA. Thank you for your time and consideration.

Sincerely,

Md Shahanur Islam Shagor
