I am writing to apply for the Functional Assessor position at PFAS (Personal Functional Assessment Services). I understand this role requires careful evaluation and assessment skills, and I am confident in my ability to learn and contribute effectively.

Through my work as a software engineer, I have developed strong analytical and problem-solving abilities. I am accustomed to reviewing complex information, identifying key details, and making well-reasoned decisions. These skills translate well to a role that requires thorough assessment and documentation.

I am a quick learner who adapts easily to new processes and systems. My background in technology has taught me to approach tasks methodically, pay close attention to detail, and maintain accuracy under pressure.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my skills and work ethic can contribute to the PFAS team.

Sincerely,

Md Shahanur Islam Shagor
