I am writing to apply for the Chargˆ'.e de formation H F position at Groupe SOS Solidaritˆ's. Your organization’s commitment to providing concrete and innovative responses to social challenges, particularly in the medico-social sector, is something I deeply respect. The mission of supporting individuals toward autonomy while fostering inclusion resonates with my own values.

Although my professional background is in software engineering, I have developed strong organizational, analytical, and process-oriented skills that are directly transferable to training administration. In my experience managing full-stack development projects, I was responsible for coordinating tasks across multiple teams, tracking progress against deadlines, maintaining detailed documentation, and ensuring that all stakeholders had the information they needed to make decisions. These responsibilities required the same rigor, attention to detail, and proactive communication that this role demands.

I am comfortable working with data, managing schedules, and supporting colleagues to achieve shared objectives. I have experience using tools like Excel for tracking and reporting, and I am confident in my ability to quickly learn and effectively use the SIRH Talent-soft system to maintain the Plan de dˆ'veloppement des compˆ'tences. My ability to work autonomously while maintaining clear communication with team members and external partners aligns well with the requirements of this position.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application. I would welcome the opportunity to discuss how my skills and experience can contribute to the important work of Groupe SOS Solidaritˆ's.

Sincerely,

Md Shahanur Islam Shagor
