I am writing to apply for the Legal Document Drafting Virtual Assistant position at Outsource Access Careers. Your focus on helping estate planning attorneys streamline their workflow is something I find genuinely practical and valuable.

While my professional background is in software engineering, the skills that make a strong developer also apply directly to document drafting: precision, attention to detail, structured thinking, and the ability to follow complex instructions accurately. I have spent years building systems where small errors have real consequences, and I have developed a disciplined approach to reviewing my work thoroughly before delivery.

Through my experience developing full-stack applications, I have worked extensively with structured data, automated workflows, and role-based access systems. These projects required me to manage multiple tasks simultaneously, maintain clear documentation, and communicate effectively with stakeholders to ensure requirements were met correctly.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
Full-Stack Developer & AI Engineer
