I am writing to apply for the Asistente Administrativo position at Accenture Mˆ'xico. The opportunity to support the PMO team in organizing, tracking, and coordinating project tasks aligns with my structured approach to work and my ability to manage multiple responsibilities effectively.

Although my professional background is in software engineering, I have consistently worked in environments that require strong administrative discipline. In my previous roles, I was responsible for maintaining project documentation, tracking progress against deadlines, coordinating with stakeholders, and ensuring that deliverables were completed on time. These experiences have given me a solid foundation in the organizational and follow-up skills that this role requires.

One area where I have developed particular strength is in managing information flow across teams. I have experience organizing documentation, preparing reports, and maintaining clear records of task status and project updates. I am comfortable working with Microsoft Office tools, including Excel, PowerPoint, and Word, for creating reports and presentations.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am confident that my methodical approach, attention to detail, and ability to manage multiple tasks will allow me to contribute effectively to the PMO team at Accenture Mˆ'xico. I have attached my CV for your review and welcome the opportunity to discuss how I can support your projects.
