I am writing to apply for the Entry Level Administrative Assistant position at RecruitLyticx Hires. The opportunity to support daily operations through accurate data management and clear communication is something I am well prepared for.

Through my work as a software engineer, I have developed strong computer skills and a disciplined approach to organizing information. I am comfortable working with spreadsheets, maintaining structured records, and following detailed workflows. My experience has taught me the importance of accuracy and consistency when handling data.

I am a quick learner who adapts easily to new tools and processes. I work well independently in a remote environment and communicate clearly in writing. I am comfortable using email, chat, and video call platforms for collaboration.

In addition to my technical background, I work effectively across teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the chance to discuss how I can contribute to the smooth operation of your team.

Sincerely,

Md Shahanur Islam Shagor
