I am writing to apply for the Field Marketing & Community Outreach Internship at Punto Cubano Berlin. Your mission to create a warm, intercultural space for Cuban dance and music in Berlin resonates with me, and I would like to contribute to making the academy more visible across the city.

I am a software engineering student with strong organizational skills and a natural ability to communicate with people from different backgrounds. I am fluent in English and Bengali, have working knowledge of German, Russian, and Hindi, and I enjoy connecting with diverse communities. I am comfortable approaching people in public spaces, presenting a project clearly, and building genuine relationships with local partners.

What stands out to me about this role is the emphasis on structured outreach with clear targets, planned routes, and a contact database. I am a detail-oriented person who values organization and follow-through. I am confident I can maintain a structured database in Google Sheets or Notion, report weekly on visits and leads, and support open-air promotions and trial-class activities.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am excited about the opportunity to help Punto Cubano Berlin grow its community and bring Cuban culture closer to new audiences. I have attached my CV for your review and look forward to hearing from you.

Sincerely,

Md Shahanur Islam Shagor
