I am writing to apply for the Senior Performance Marketing Manager â Social Paid (Meta Fokus) position at KoRo Handels GmbH. Your focus on scaling new customer growth through a creative-first, data-driven approach aligns with my experience in building systems that optimize user acquisition and performance.

Through my work as a software engineer, I have developed strong analytical capabilities by designing and implementing data-driven applications. I have experience working with performance metrics, analyzing user behavior data, and building testing frameworks to continuously improve outcomes. My technical background gives me a structured approach to understanding and optimizing customer acquisition funnels.

One area that particularly interests me is the ownership of creative strategy and testing frameworks. In my professional experience, I have collaborated with cross-functional teams including analytics, content, and product teams to deliver features that directly impacted user growth and engagement. I am comfortable working with large datasets, extracting insights, and translating them into actionable improvements.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my analytical and technical skills can contribute to KoRo’s growth. Thank you for your consideration.

Sincerely,

Md Shahanur Islam Shagor
