I am writing to apply for the Vertrieb Bausoftware B2B position at G&W Software AG. Your company's reputation as a market leader in AVA and cost planning software for the German-speaking region is impressive, and I appreciate the direct, no-nonsense approach in your job posting.

While my background is in software engineering rather than architecture or construction, I bring strong analytical thinking, process optimization skills, and a genuine interest in understanding customer workflows. I enjoy breaking down complex problems and finding practical solutions that meet real business needs.

In my professional experience as a Web Developer, I worked closely with clients to analyze their operational processes, identify pain points, and collaboratively develop tailored solutions. This involved independent client communication, requirement gathering, and ensuring smooth go-live transitions. I am comfortable taking ownership of the sales cycle from initial consultation to successful delivery.

I am fluent in Bengali and English, have working knowledge of German and Russian, and enjoy collaborating in international environments. I am ready to travel within the Metropolregion Rhein-Ruhr and work hybrid as needed.

I have attached my CV for your review. I would welcome the opportunity to discuss how my skills can contribute to your team.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
