I am writing to apply for the Social Media Manager position at 6PM GmbH. Your work in streetwear culture, community building, and brand-driven content resonates with how I approach digital communication and audience engagement.

Through my professional experience, I have developed a strong understanding of how content, design, and brand voice work together across digital channels. I have coordinated with brand and design teams to plan, create, and publish assets, ensuring consistency across all touchpoints. I am comfortable working with content calendars, monitoring engagement metrics, and adapting strategies based on platform trends and audience behavior.

One area that particularly interests me is community management. I have experience responding to user interactions in a timely and brand-appropriate manner, maintaining an active and engaged community. I also understand the importance of tracking KPIs such as reach, engagement, and follower growth, and using that data to refine content approaches.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how I can contribute to 6PM’s social media presence and community growth.

Sincerely,

Md Shahanur Islam Shagor
