I am writing to apply for the Marketing Manager - Growth & Market Expansion position at toern GmbH. Your mission to rethink the e-commerce returns process with an automated, AI-driven solution is a compelling challenge, and I am interested in contributing to your growth.

toern is operating at the intersection of AI and SaaS, a domain where I have practical experience. As a Full-Stack & AI Engineer, I have built and deployed AI-powered applications, including platforms that leverage machine learning models and automation to solve real-world business problems. This background gives me a grounded understanding of how AI tools can be used to create scalable, efficient workflows.

One area that particularly interests me is the role's focus on active growth and market expansion. In my previous work, I have been responsible for the end-to-end delivery of technical projects, which required clear communication, structured planning, and a hands-on approach to execution. I am comfortable taking ownership of campaigns, creating content, and ensuring consistent messaging across channels, from presentations to partner marketing.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my background in AI and structured execution can support toern's growth.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
Full-Stack Developer & AI Engineer
