I am writing to apply for the Bereichsleitung (m/w/d) Fachbereich Elektro- und Leittechnik position at INP Deutschland GmbH. Your work on large-scale energy, automation, and process engineering projects across the full project lifecycle is impressive, and I am interested in contributing to your team.

Through my professional experience in software engineering and system development, I have built a strong foundation in automation, process optimization, and technical project management. I have worked on systems that require careful planning, structured execution, and cross-team coordination. My engineering background has taught me to approach complex problems methodically and deliver reliable results.

In my previous work, I have been responsible for planning, developing, and deploying technical solutions that involved multiple stakeholders and required clear communication across teams. I have experience managing technical processes, optimizing workflows, and ensuring that projects stay on track from initial concept through final delivery. I am comfortable taking ownership of both technical and organizational responsibilities.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am confident that my engineering mindset, project experience, and ability to lead technical initiatives would allow me to contribute meaningfully to INP Deutschland GmbH. I have attached my CV for your review and welcome the opportunity to discuss how I can support your team.

Sincerely,

Md Shahanur Islam Shagor
