I am writing to apply for the Junior Consultant â Vertrieb & Recruiting in einer Rolle position at JetztJob. Your approach of combining sales and recruiting from day one, with full ownership of the client cycle, is exactly the kind of responsibility-driven environment I am looking for.

Although my professional background is in software engineering, I have consistently worked in client-facing and cross-functional settings. As a web developer, I regularly communicated directly with stakeholders, analyzed their business needs, and translated requirements into actionable plans. I am comfortable presenting solutions, handling objections, and managing projects independently from start to finish.

One area that particularly interests me is the structured 360-degree development path you offer. I learn quickly and prefer environments where I can build competence across multiple disciplines. I am used to taking initiative, documenting my work clearly, and staying focused on measurable outcomes.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am ready to take on the full cycle of client acquisition and recruiting execution. I have attached my CV for your review and would welcome the opportunity to discuss how I can contribute to your team.

Sincerely,

Md Shahanur Islam Shagor
