I am writing to apply for the Wirtschaftsprˆ…fer (m/w/d) or Wirtschaftsprˆ…feranwˆ⁄rter (m/w/d) position at Scheller & Partner PartG mbB. While my professional background is in software engineering rather than auditing, I bring strong analytical skills, a structured approach to complex problem-solving, and a track record of delivering reliable systems.

Through my work as a full-stack developer, I have built and maintained scalable web applications using Laravel, Next.js, and Node.js. This involved designing secure authentication systems, integrating payment gateways, optimizing database queries, and deploying production systems on Linux servers with Docker and CI/CD pipelines. These responsibilities required careful attention to detail, systematic testing, and the ability to manage multiple moving parts simultaneously.

One area that particularly interests me is the emphasis on eigenverantwortliche Arbeitsweise and the ability to analyze complex Sachverhalte. In my previous roles, I worked independently on end-to-end feature delivery, from requirement analysis to deployment, while collaborating closely with cross-functional teams. I am comfortable taking ownership of tasks and delivering results with minimal supervision.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am eager to bring my analytical mindset, reliability, and willingness to learn to your team. I have attached my CV for your review and would welcome the opportunity to discuss how I can contribute to Scheller & Partner.

Thank you for your consideration.

Sincerely,

Md Shahanur Islam Shagor
