I am writing to apply for the Valeter position at Park's Motor Group, specifically within the Jaguar and Land Rover franchise in Inverness. I understand that this role demands reliability, attention to detail, and the ability to maintain high standards consistently, and I am confident I can meet these expectations.

Although my professional background is in software engineering, I have always approached every task with a strong sense of responsibility and a commitment to quality. I am accustomed to working under pressure, meeting tight deadlines, and ensuring that every deliverable meets a high standard before completion. These habits transfer directly to a valeting environment where consistency and thoroughness matter.

I hold a full clean driving licence and am comfortable working independently or as part of a team. I understand the importance of dealing with customer queries in a courteous and helpful manner, and I am committed to providing excellent service. I am also familiar with modern cleaning techniques and am quick to learn new processes and tools.

In addition to my work ethic, I communicate clearly and work well with others. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in diverse team environments.

I have attached my CV for your review. Thank you for considering my application, and I look forward to the opportunity to contribute to the team at Park's Motor Group.

Sincerely,

Md Shahanur Islam Shagor
