I am writing to apply for the Global Sales Account Executive position at Delta Air Lines. The role's focus on managing strategic accounts, driving revenue growth, and collaborating with Joint Venture partners aligns with my experience in cross-functional project delivery and stakeholder management.

In my professional experience as a Web Developer, I worked closely with clients and internal teams to understand business goals, define project requirements, and deliver solutions that met measurable objectives. This required clear communication, careful planning, and the ability to adapt to changing priorities while maintaining focus on results.

One area that particularly interests me is the emphasis on using performance data and commercial insight to identify opportunities and improve outcomes. In my development work, I regularly analyzed application metrics, user feedback, and system performance data to make informed decisions and optimize results. I am comfortable working with data to track progress and drive improvements.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
