I am writing to apply for the Haustechniker position at IFA Fehmarn Hotel & Ferien-Centrum. Your hotel's location directly on the Baltic Sea and the hands-on team environment are particularly appealing to me.

Through my professional experience, I have developed strong technical skills in maintaining and repairing electronic and mechanical systems. I have worked extensively with Linux servers, network configurations, and hardware installations. My background includes troubleshooting technical issues, performing preventive maintenance, and ensuring systems operate reliably.

In previous work, I handled installation and repair tasks for electronic equipment, maintained documentation of technical inspections, and coordinated with external service providers. I am comfortable working independently and managing multiple maintenance tasks simultaneously. I have experience procuring materials and keeping accurate records of work performed.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am flexible, reliable, and accustomed to working in shifts. I would welcome the opportunity to contribute to your team and ensure the smooth operation of your hotel's technical systems. I have attached my CV for your review.

Sincerely,

Md Shahanur Islam Shagor
