I am writing to apply for the Groundman position at City of Ruston. While my professional background is in software engineering, I am a hard worker, quick learner, and problem solver who is ready to contribute to your team in a hands-on capacity.

Through previous roles, I have developed strong discipline, attention to detail, and the ability to follow procedures carefully. I am comfortable working with tools, maintaining equipment, and supporting field operations. I am also experienced in collaborating with teams to complete tasks efficiently and safely.

I am physically capable, reliable, and eager to learn the specific requirements of this role. I take direction well and am not afraid to ask questions when needed. I am committed to showing up on time, doing quality work, and supporting the City of Ruston’s operations.

In addition to my work ethic, I communicate clearly and work effectively with diverse teams. I am fluent in Bengali and English and have working knowledge of Russian and Hindi.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
