I am writing to apply for the Human Resources Coordinator position at Sundayy. While my professional background is in software engineering, I bring strong organizational, coordination, and communication skills that are directly applicable to this role.

In my previous work as a Web Developer at Explo-IT and DataSoft LTD, I collaborated closely with stakeholders, managed project timelines, and ensured clear communication between technical and non-technical team members. These experiences have given me a practical understanding of how to coordinate people, processes, and priorities in a structured way.

One area that particularly interests me is the opportunity to apply my organizational discipline to human resources operations. I am comfortable handling documentation, maintaining records, and supporting team members across different time zones and cultures.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
