I am writing to apply for the (Junior) Creator Manager - all genders position at ADBAKER. Your role as a leading TikTok Shop agency in Germany and your focus on building high-performance creator networks is exactly the kind of environment where I want to grow.

Although my professional background is in software engineering, I bring strong organizational skills, a data-driven approach, and a genuine interest in how Creator Commerce works. I am comfortable tracking performance metrics, managing multiple relationships simultaneously, and communicating clearly with both creators and clients.

In my previous work as a Web Developer, I coordinated with stakeholders, managed timelines, and delivered projects end-to-end. I am used to working hands-on, taking ownership, and optimizing processes based on data. I am confident these skills transfer directly to sourcing, onboarding, and managing creators effectively.

I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international teams. I am ready to learn the TikTok Shop ecosystem and contribute to scaling your creator network.

I have attached my CV for your review and would welcome the opportunity to discuss how I can support ADBAKER’s growth.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
