I am writing to apply for the HR - Business Partner position at Personalberatung Susan Lange. While my professional background is in software engineering, I bring transferable strengths in structured communication, cross-team collaboration, and systematic problem-solving that align with the responsibilities of this role.

Through my work as a web developer, I have consistently coordinated with stakeholders, managed project timelines, and maintained clear documentation. These experiences have built a disciplined approach to handling multiple priorities and supporting team members effectively.

One area that particularly interests me is the recruitment and employee support aspect of this position. I enjoy working with people, understanding their needs, and helping them navigate processes. I am confident in my ability to learn HR-specific tools and workflows quickly.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my skills can contribute to your team.

Sincerely,

Md Shahanur Islam Shagor
