I am writing to apply for the (Senior) SEA Manager position at mammaly. Your vision to build the best media-buying team in Germany and scale profitable customer acquisition in the pet supplement market is ambitious and clear. I am interested in contributing to a team that values data-driven decision-making and full-funnel thinking.

My background is in software engineering, where I have spent over four years building and optimizing full-stack web applications. This technical experience has given me a strong analytical mindset and a deep understanding of how digital systems work end-to-end. I am comfortable working with tracking infrastructure, data pipelines, and conversion architecture, which I believe provides a solid foundation for managing and scaling paid search campaigns.

In my professional experience as a Web Developer, I built and integrated RESTful APIs, implemented secure payment gateways, and optimized application performance through database tuning and caching strategies. I have worked extensively with authentication systems, role-based access control, and real-time features. This technical depth allows me to understand the full funnel from search click to checkout, and to identify concrete optimization levers.

One area that particularly interests me is the strategic use of data to drive decisions. I have experience working with metrics like CAC, LTV, and ROAS in the context of subscription-based platforms. I am comfortable analyzing conversion data, forming hypotheses, and working iteratively with cross-functional teams to test and improve performance.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments. I have attached my CV for your review and would welcome the opportunity to discuss how I can contribute to mammaly’s growth.

Thank you for your consideration.

Sincerely,

Md Shahanur Islam Shagor
