I am writing to apply for the Social Media & Content Creator role at mammaly. Your mission to improve the lives of dogs through premium supplements is compelling, and I appreciate the focus on authentic, community-driven content.

My background is in software engineering, where I have developed strong skills in visual design and user experience. I am proficient with Figma for creating graphics and layouts, and I understand how to build digital experiences that engage users. I am a quick learner and a hard worker, comfortable taking ownership of tasks and working independently to achieve clear goals.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am organized, result-oriented, and ready to contribute to your team. I have attached my CV for your review and look forward to the possibility of discussing how I can support mammaly's growth.

Sincerely,

Md Shahanur Islam Shagor
