I am writing to apply for the Sales Development Senior Manager position at Wellhub. Your mission to make every company a wellness company through a platform that connects employees to fitness, mindfulness, and wellbeing resources is genuinely impactful. I am interested in contributing to a team that builds meaningful partnerships and drives measurable business outcomes.

My background is in software engineering, where I have spent over four years building full-stack web applications and automation systems. This experience has given me strong analytical capabilities and a data-driven approach to problem-solving. I am comfortable working with metrics, identifying inefficiencies in processes, and implementing systematic improvements.

In my professional experience, I have worked closely with cross-functional teams to deliver features, manage stakeholder expectations, and ensure projects are completed on time. I have also mentored junior developers, conducted code reviews, and helped onboard new team members. These experiences have developed my ability to coach others, communicate clearly, and foster a collaborative environment.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
