I am writing to apply for the Customer Service Specialist position at SORACOM. Your mission of making connectivity work for businesses around the world and the emphasis on building a collaborative, globally distributed team resonates with me.

While my professional background is in software engineering, I have consistently worked in roles that required strong communication, attention to detail, and the ability to manage multiple responsibilities independently. I am comfortable working across time zones and cultures, and I enjoy helping people solve problems.

One area that particularly interests me is the opportunity to support customer and partner accounts through clear communication, accurate reporting, and proactive follow-up. I have experience collaborating with cross-functional teams, managing data carefully, and ensuring that information flows to the right people at the right time.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
