I am writing to apply for the Courier position at FedEx. Your company's reputation for reliable global delivery and its People-Service-Profit philosophy stand out to me. I am drawn to organizations that prioritize their people and operational excellence.

Although my professional background is in software engineering, I have developed strong problem-solving abilities, attention to detail, and the discipline to follow processes accurately and safely. These skills transfer well to operational roles that require precision, organization, and teamwork.

In previous work, I have consistently demonstrated the ability to plan, organize, and complete tasks efficiently while maintaining high standards. I am comfortable working in structured environments where safety, timeliness, and customer service are the top priorities.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
