I am writing to express my interest in the Lawyer position within the Constitutional Law Team at Crown Law, Queensland Government. While my professional background is in software engineering and AI systems, I bring strong analytical reasoning, attention to detail, and the ability to work with complex frameworks that I believe are transferable to legal practice.

My work as a full-stack and AI engineer has required me to interpret detailed technical specifications, analyze multi-layered problems, and provide clear, reasoned advice to stakeholders. These skills in statutory interpretation and logical analysis align with the demands of constitutional law and human rights advisory work.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am drawn to Crown Law's commitment to integrity, excellence, respect, and responsibility. The opportunity to contribute to matters of fundamental importance to the State is genuinely appealing.

I have attached my CV for your consideration and welcome the opportunity to discuss how my background can support the Constitutional Law Team.

Thank you for your time.

Sincerely,

Md Shahanur Islam Shagor
