I am writing to apply for the Tutor a E Learning Industria Agroalimentaria position at Grupo Coremsa. Your company's 20-year track record in vocational training and commitment to inclusive, equitable education aligns with my own values of clear communication and practical knowledge sharing.

While my background is in software engineering, I have direct experience with Moodle and online learning platforms from building and managing educational tools. I understand how to navigate teleformaciˆ‡n environments, support learners remotely, and keep course content organized and accessible.

In my professional experience as a Web Developer, I have worked extensively with Laravel, Next.js, MySQL, and Linux servers. I have built systems that require clear documentation, structured workflows, and user-friendly interfaces. These skills translate directly to managing course materials, tracking learner progress, and troubleshooting technical issues in a virtual classroom.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am available for the flexible teleformaciˆ‡n schedule and can start from June 2026. I have attached my CV for your review and look forward to the possibility of contributing to Grupo Coremsa's training programs.

Sincerely,

Md Shahanur Islam Shagor
