I am writing to apply for the Account Manager Personalmanagement-Systeme position at Stannek GmbH. Your mission to help companies digitalize their HR processes and establish modern cloud-based systems is one I find genuinely interesting. The opportunity to guide clients from onboarding through long-term strategic development appeals to my technical background and my interest in solving real business problems.

Through my work as a software engineer, I have developed a strong understanding of digital workflows, system integrations, and cloud tools. I have experience working with modern technologies including Laravel, Next.js, and various cloud platforms. This technical foundation allows me to understand the systems behind HR digitalization and communicate effectively with both technical teams and business stakeholders.

One area that particularly interests me is the role of Schnittstellenberatung between companies, tax consultants, and software solutions. In my previous experience, I have worked on projects that required coordinating between different systems and ensuring smooth data flows. I am comfortable identifying optimization potential in processes and translating that into practical improvements.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am confident I can contribute to your team and help your clients succeed in their digitalization journey. I have attached my CV for your review and look forward to discussing how I can support Stannek GmbH.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
